10 reasons why you should join our Tuition?

1. 'Study with Simon' Programme (Free Question Practices)

Simon's study programme focuses on the practice of questions for all the subjects where our students will be guided at your own pace of learning. Our students will be given essay outlines to guide them and consultation on the writing and questions will be provided.

2. Good Notes and Essays

Our in-house designed notes and model essays for JC Economics, JC GP, JC History, O level Economics and O Level English are specially developed to improve students' skills and knowledge. These teaching materials will prepare our students to be exam-oriented and enriched in content application to make their learning easy and productive.

3. Effective Essay Writing Skills Development

As all our humanities subjects require essay writing, special essay writing techniques are developed to cater to the unique requirements of the writing process. We are effective in this aspect where our nurturing will shape students to be sharp thinker and prolific writer

4. Answering Techniques for Comprehension, CSQ and SAQ

As most of the subjects are focusing on thinking-based questions with open-ended form of questions, our tuition is oriented towards the teaching of answering techniques for this form of examination for all the humanities subjects that we are teaching. Focus of these answering techniques is on the understanding of the content, extract of data and information, phrasing of the answers and adaption of the variant of questions. Answering skills will be taught with specification of the subjects, answering the uniqueness of the questions.

5. Personal and around the clock guidance

Learning at our centre is not confined to the time-constrained duration of our lessons. Our guidance and consultation is stretched beyond the defined hours, made possible by social media and communication technology and our belief that we are close, companioned and enriching educators that are missioned to make learning easy, productive and accessible to our students.

6. 100% answer all your questions

Our students are also assured that their queries, doubts, mis-conceptualization, inadequacies and frictions in learning are effectively cleared when they are tutored by us as we can answer all their questions 100%. We are well-prepared, experienced and ready to be the dictionary for their reference. We will also develop the necessary methodology to eradicate frictions in learning and raise competency to be proficient.

7. E-learning and App-based Learning

Technological support in the form of e-learning system and Apps are part of our programmes to make learning anytime, anywhere. Students will be able to access more learning as these learning tools aid our Flip Education, nurturing our students to be independent learners of the future.

8. Motivational and inspirational process of learning

Joining our tuition programme is beyond just preparing for examination, your learning attitude and behaviours will improve as our students will seek pursuit of excellence as passion and virtues that will be part of life. This learning experience with us is a motivational and inspiration cultural interaction that will aspire our students for greatness in their academic and career in the future. We believe in cultivating in our students the positive values and behaviours in their life.

9. An internship network to enrich your life and career

Being part of our tuition programme, it will be an enriching and developmental guidance for life. Our internship and learning network will be good for our students to be more prepared for their future academic and career development. Our students can participate in our internship programmes in areas like Social Media Marketing, Information Technology and Educator Development which we have organized with local universities.

10. Most importantly, our lessons are enriching and educational

We make learning interesting and fun as we make learning real to you. Our students will be taught in a lively, engaging and stimulating discourse that discuss on real issues and develop critical skills for solving problems. Most of all, our tutors are fun-loving and creative educators that will make learning enjoyable and enriching.
